

THE GALLERY @ FIRST PARISH ON THE COMMON

If you are submitting art to the Gallery, please see the example below that explains how pieces should be prepared:

To hang a picture securely:
For ease of hanging and safety, we need pictures prepared as follows:

Use eye bolts (aka screw eyes) with "picture" wire (multi-stranded, twisted, as shown).

Place eye bolts on the frame in the upper third. Thread the wire through the eyes and twist it around the wire, which should be fairly taut.

Please do not use "sawtooth" hangers.

Thank you!
